

Based in Scotland, LFEE Europe has been a Course Provider under the European Programme for Mobility in Education (currently Erasmus+) since 2002. Along with LFEE France, our sister company, we deliver sector-leading Professional Development for teachers and education stakeholders throughout Europe.

Our experienced team of language specialists and education experts allows us to design and run bespoke courses to suit the specific needs of teachers, schools and Education Authorities.

LFEE's recognised expertise and leadership in the field of Education and Language Teaching and Learning also translates into our participation in various trans-national cooperation and innovation projects under the Erasmus+ KA2 strand.

The success of our programmes and collaborations is based on some core values:

- a passion for education in general and language teaching & learning in particular;
- a friendly and open approach to delivering our services;
- an attention to detail;
- a steady pursuit of improvement and innovation;
- our unique position within the Scottish Education system and its values of inclusion, respect and integrity as well as its focus on well-being, a collaborative approach and problem solving skills!

Some of our key programmes include...

Under the Erasmus+ KA1 programme **Immersion courses for primary and secondary language teachers**

Our courses are practical and provide teachers with up to date methodology, fresh resources and renewed enthusiasm for language learning and teaching. Our courses in France and Spain are accredited with Professional Recognition by the General Teaching Council for Scotland.

Study visits for education leaders and managers

We organise study visits for education leaders which include exploring and discussing themes such as: quality control in education, inclusion, health and well-being, self-evaluation or CLIL policies.

Developing International Projects for Schools (DIPS)

Our DIPS programme has been designed in partnership with l'Académie de Montpellier. We run this course twice a year in different European countries. The objective is to support the internationalisation of schools and education authorities and to help them extend their international network.

Under the Erasmus+ KA2 programme

LFEE Europe is currently leading a trans-national consortium project entitled **ELAPSE - Embedding Languages Across Primary and Secondary Education**. This 2-year collaboration aims to support language teaching across upper primary, transition and early secondary levels. An online course introducing CLIL and soft-CLIL methodology to teachers as well as new cross-curricular resources in 4 languages will be available in 2019/2020. Our previous involvement in KA2: the creation of a [Common European Framework of Reference for Teaching](#)

We look forward to working with you! Please get in touch on info@lfee.net or visit our website www.lfee.net for more details.
