

DIPS: DEVELOPING INTERNATIONAL PROJECTS FOR SCHOOLS 2019-2020

Our **DIPS programmes** aim to equip school teachers, managers and coordinators of international projects with the essential tools to set-up their school international strategy and boost its international dimension, making sure these activities are sustainable. The courses provide participants with opportunities to enlarge their professional network, share good practice with colleagues and learn how to manage and implement lasting European projects. Our DIPS programmes run in various locations throughout Europe each year.
