

Based in Scotland, LFEE Europe has been a Course Provider under the European Programme for Mobility in Education (currently Erasmus+) since 2002. Along with LFEE France, our sister company, we deliver sector-leading Professional Development for teachers and education stakeholders throughout Europe.

Our experienced team of language specialists and education experts allows us to design and run bespoke courses to suit the specific needs of teachers, schools and Education Authorities.

LFEE's recognised expertise and leadership in the field of international Education also translates into our participation in various trans-national cooperation and innovation projects under the Erasmus+ KA2 strand.

Many of our courses are delivered in partnership with our colleagues at [InterActing](#).

The success of our programmes and collaborations is based on some core values:

- a passion for education in general and language teaching & learning in particular;
- a friendly and open approach to delivering our services;
- an attention to detail;
- a steady pursuit of improvement and innovation;
- the influence of the Scottish Education system and its values of inclusion, respect and integrity as well as its focus on well-being, a collaborative approach and problem solving skills!

Some of our key programmes include...

Under the Erasmus+ KA1 programme

Training courses for primary and secondary language teachers

Our courses are practical and provide teachers with up to date methodology, fresh resources and renewed enthusiasm for language learning and teaching. Courses in France and Spain are accredited with Professional Recognition by the General Teaching Council for Scotland. These courses can focus on different themes such as CLIL learning & teaching or Language and Culture development.

Study visits for teachers, education leaders and managers

We organise structured courses which include exploring and discussing themes such as: quality control in education, inclusion, health and well-being, self-evaluation, learning for sustainability or CLIL policies.

Developing International Projects for Schools (DIPS)

Our DIPS programme has been designed in partnership with *l'Académie de Montpellier*. We run this course once a year in a different European country. The objectives are to support the internationalisation of schools and education authorities and to help them extend their international network.

Under the Erasmus+ KA2 programme

Recent projects:

[Inspiring Pupils – Digital Creativity through films](#) (2021-2023)

[ELAPSE – Embedding Languages Across Primary and Secondary Education](#) (2018-2020)

[A Common European Framework of Reference for Teaching](#) (2016-2018)

We look forward to working with you! Please get in touch on info@lfee.net or visit our website www.lfee.net for more details.
