CHAT GPT & AI COURSE

Professional Development Training Opportunities
with LFEE Europe and InterActing+

Supercharge Your Teaching With ChatGPT and AI

This course introduces an array of amazing AI tools designed to supercharge your teaching at all levels. You'll master hands-free interactions with voice control, streamline your communications with preset prompts, and create captivating, interactive activities for your students. Learn to harness AI for effortless lesson planning, content creation, and student assessments. Dive into tools that offer sharp, concise answers to complex questions and generate quick video summaries. Develop skills in crafting effective AI prompts and explore advanced techniques for using large language models in the classroom. Discover how to create customised educational chatbots tailored to your students' needs, transforming the way they interact with learning materials. Additionally, tools that transform text into speech make materials accessible for all students, and automate the transcription of video and audio recordings for easy review. These AI innovations will revolutionise your teaching, creating a more dynamic, inclusive, and efficient learning environment.

Aims of our "Supercharge Your Teaching With ChatGPT and AI" training course:
- To present participants with various AI tools and offer hands-on workshops
- To show participants how to create captivating, interactive activities for their students
- To enable participants to create a more dynamic, inclusive, and efficient learning environment for their students with the help of AI innovations
- To encourage participants to reflect on how AI can transform their teaching practice and empower their students to use AI effectively and responsibly
- To promote the exchange of teaching practices and develop ideas for use in the classroom
