

## PUPIL MOBILITIES COURSE

Professional Development Training Opportunities  
with LFEE Europe and InterActing+

### Organising quality pupil mobilities within Erasmus+

At the heart of the Erasmus programme is the learning and enrichment which comes from travelling and hosting. Successful pupil mobilities can not only build lifelong friendships they can help sustain cultures of exchange which go beyond the expectations of specific projects. Our course is designed and delivered by experts in implementation and evaluation. Pupil mobility is a key element of the school internationalisation process. Organising quality learning periods abroad within the framework of the Erasmus+ programme requires a detailed and precise execution of tasks in which all the agents involved intervene. In this course, we will establish methodologies to organise quality pupil mobilities in each school, in accordance with the quality standards of the Erasmus+ program, whether they are group mobilities or individual, short or long-term, mobilities.

**The different processes that will be addressed during our “Organising quality pupil mobilities within Erasmus+” training course include:**

- Pupil mobility in Erasmus+: Group mobility, short-term learning mobility and Long-term learning mobility
- Consistency of mobility with the school needs and objectives
- Inter-school agreements
- Participants selection
- Expected results
- Program, study plan and learning agreement
- Recognition of learning outcomes
